FAMILIES IN NEED
ELDERLY
CHILDREN & YOUTH
HEALTHCARE
Edwards Lifesciences have set the goal for 100% of their employees to participate in at least one charitable or community outreach event every single year. Employees of Edwards Lifesciences have also fostered a “Total Wellness Outreach Program”, and the company actively partners with the Singapore Heart Foundation, the Singapore Heart Center, the Singapore Special Olympics and various other organizations.

Google

With a strong conviction that technology and innovation can promote education, economic opportunity, and inclusion, Google established a program “Code in the Community”, providing free coding classes to 3,000 young Singaporeans from less privileged backgrounds.

Moody's

In 2018, Moody’s partnered with 67 non-profit organizations, supporting programs to provide adequate welfare for the underprivileged. In 2018, Moody's also launched a CSR Impact Leaders Program. This program allows leaders to champion CSR programs and encourage their colleagues to get involved in local efforts and contribute to expanding current CSR programs.

Edwards Lifesciences’s “Total Wellness Outreach Program” is a testament to their commitment to giving back to the community. By encouraging their employees to participate in various charitable and community outreach events, they not only support local causes but also foster a culture of giving within their organization. This is a great example of corporate social responsibility and how companies can make a positive impact on society.

Google’s “Code in the Community” program is a prime example of technology being used as a tool for social good. By providing free coding classes to young Singaporeans, they are not only empowering individuals with the skills needed for a career in technology but also opening up opportunities for economic mobility and inclusion in the digital age.

Moody’s CSR Impact Leaders Program is a testament to how companies can support non-profit organizations and encourage their employees to get involved in local efforts. By providing leadership opportunities to champion CSR programs, Moody’s is not only investing in the success of these programs but also in the development of their employees. This approach not only benefits the community but also enhances the professional growth of the employees involved.

P&G Asia partnered with the Vietnamese Red Cross to launch its global flagship CSR program “Children’s Safe Drinking Water Program” to provide clean drinking water to communities around the world. Since 2004, P&G has partnered with 150 NGOs to deliver 15 billion litres of clean water all over the world.

Xylem’s CSR program has a two-fold mission: provide and protect safe water resources for communities in need, and educate people about water issues. Volunteers have built aqua towers that provide clean water, partnered with schools and associations to spread awareness about water-related issues, and participate in water source clean-up activities.

Transcarta CSR program spans various areas, from education to environmental conservation. Transcarta volunteers also serve on the board of Metropolitan YMCA and as chair of the fund-raising committee. Transcarta also provides mentoring support to women through the Protégé Mentoring program to NUS students.

AmCham’s Corporate Community Day (CCD) is a special day that encourages AmCham members to give back to Singapore through local community work. In partnership with South East Community Development Council, we had the biggest turnout at our annual CCD last year with more than 500 members from over 36 companies participating in the Walk for Rice, raising over 22,000 bowls of rice that was channeled to 7,000 beneficiaries.

Global Brand Partners is committed to environmental sustainability and having their Sports Apparel and Footwear collections to be using at least 30% sustainable substrates for production. Global Brand Partners uses recyclable materials in their clothing production and continually monitors their daily water and energy usage.
